LucaNet Academy GmbH

LucaNet has been synonymous with intelligent software solutions and professional expertise in consolidated financial statements and controlling since 1999. Our aim is to simplify your day-to-day processes with the help of our financial performance management software.

No matter what the size of your company and what industry you operate in, we can provide you with a tailored solution. Over 2,000 customers in more than 50 countries are already profiting from our user-friendly software and professional consulting.

Find out how simple consolidation, planning, and analysis can be.

LucaNet is the ideal solution for:

- Compiling consolidated financial statements in line with HGB, IFRS, and more
- Planning success, financials, and balance sheets in an integrated way
- Digital financial statements, data and risk analysis
- Analysis and financial reporting
- Creating and submitting tax balance sheets

How LucaNet software stands out

- A complete data model that includes computational business logic
- Combines consolidation, planning, and controlling in a single tool
- Predefined parallel structures (that can also be customized) for P&L, balance sheets, and cash flow statements
- Automatically imports data from all common source systems (via 200 interfaces)
- Certified according to the IDW PS 880 standard

Software for your financial department

Our certified solutions can be implemented immediately and require no special IT expertise. Meanwhile, our multilingual data model makes it possible to use LucaNet all around the world.
